

## 25th Annual Augusta Southern Nationals

July 16 - 18, 2010 On the Savannah River in Augusta, GA

Motorsport America visited the drag boat racing in Augusta this weekend. The basics of drag boat racing are very similar to those of land drag racing. It is an acceleration race over a measured quarter mile straightaway on water between two high performance race boats.

It's LOUD, exciting, just like a land race, except you can set up camp and lounge on the banks of the river and enjoy the action. We recommend this style of racing as a real summertime past time you can count on every year!

For more information and final results of the races, visit [www.augustasonthernnationals.org](http://www.augustasonthernnationals.org)
