**About the AWBA - AMERICAN WHEELCHAIR BOWLING ASSOCIATION**

Founded in 1962 by Richard Carlson, the AWBA is a non-profit organization dedicated to growth, encouragement, promotion and regulation of the sport of wheelchair bowling throughout the world.

The AWBA provides, through its tournament events and web site access, a competitive, challenging, and informative environment for those individuals with disabilities requiring the use of a wheelchair while bowling to participate in bowling events no matter their individual skill level.

Our overall objective will always be, as it was in the beginning, to promote the sport itself and the camaraderie amongst its members. For more info visit [www.awba.org](http://www.awba.org)
