

## Car Show, Fly-In added fun and excitement to World Crown 300

Thanks to the Autumn Fly-In and Aviation Day at the Jackson County Airport, the skies around GMP were loaded with airplanes on November 13. Presented by the Jackson County Aviation Association, the fifth-annual event featured somewhere between 50 and 100 single engine experimental, vintage and modern airplanes. There was a car show with more than 50 vehicles, airplane rides, exhibits, vendors and kid activities. Proceeds benefitted the Boys & Girls Club of Jackson County. Here are our MSA staff's photos of Saturday's activities.
