**2004 Honda Rune**

Country: Japan  
 Engine: Liquid-cooled, horizontally opposed, six cylinder four stroke  
 Ignition: Digital  
 Power Rating: 98 b.h.p. @ 5000 rpm  
 Bore x Stroke: 74x71 mm  
 Displacement: 1832cc  
 Vavles: Single overhead cam, two vavles per cylinder  
 Fuel System: Fuel injection, six 32mm throttle bodies  
 Transmission: Five speed, shaft final drive  
 Suspension: Front trailing link forks, single rear shock  
 Brakes: Front and rear disc  
 Weight: 800 lbs.  
 Top Speed: 120 mph

*This Honda Rune has been extensively modified with restyled bodywork and paint. The rear fender customizing to make room for the oversize rear tire is very well executed. While the base model Rune is a custom machine, this illustrates what possibilities exist to elevate the art to a new level.*
