

**Report from ADRL Rockingham Dragstock VII, September 10-11:**

We didn't get the full Rockingham experience over the weekend thanks to the rain that has been an all too frequent guest this year, but what did happen during the ADRL Simpson Dragstock VII was truly memorable.

A new E.T. world record was set in three classes and there will be chances for two other class records when Dragstock gets completed in two weeks.

Those weren't the only records, either.

In Pro Nitrous alone, there were three total records set, as competitors came out in droves to participate in the ADRL's most prestigious race.

Even during a rain-shortened race, there was plenty of action as series inches towards the LenMar Motorsports ADRL World Finals VI at Texas Motorplex in October. For more information, visit [www.adrl.us](http://www.adrl.us). (Photos by MSA Staff: Fred Hanyon & Leon McVay.)

**Owens, Goforth Double Up, Part of Six Winners at Ohio Drags IV**

NORWALK, OH (September 25, 2010) - Two of the top competitors in the American Drag Racing League (ADRL) showed exactly why they reign atop their respective classes at Saturday's Summit Racing Equipment Ohio Drags IV.

Extreme Pro Stock driver Cary Goforth and Pro Extreme Motorcycle rider Ashley Owens both won for the second time in two nights to stay No. 1 in their divisions, capping off a memorable double-race weekend at Summit Motorsports Park.

"To get two wins is just really, really awesome," said Goforth, who won Dragstock VII on Friday. "Awesome won't even cover it. This is just wonderful. You always dream about something like this, but you don't always get it."

Two other drivers got a chance to celebrate for the first time in the ADRL, as Mick Snyder (Pro Extreme) and Jim Laurita (Pro Nitrous) both picked up their first career ADRL wins on Saturday.

Chuck Ulsch picked up his third win of the 2010 season in Extreme 10.5 and Morgan Benfield got the win in Pro Junior Dragster.

The ADRL closes out the 2010 season with the LenMar Motorsports ADRL World Finals VI, which feature the famous Speedtech "Battle For The Belts." The top eight in each class qualify for a chance at a world title. The event takes place on Oct. 22-23 at Texas Motorplex in Ennis, TX.
