

NASA - Aug 7-8, 2010

The National Auto Sport Association (NASA) is at it again Aug 7-8 to roar around Road Atlanta's track! With race and high-performance street cars you could see great competition and variety! From Endurance Challenges, Spec Miata, American Iron, to Thunder and Lightning Sprint races, NASA had something for everyone to enjoy! There will be a Teenage Driving Survival School for new drivers to take.

About NASA

The National Auto Sport Association, is a business dedicated to organizing and promoting racing activities for both the aspiring or accomplished racer and Teen accident awareness courses.

The National Auto Sport Association (NASA) was formed in 1991 to deliver high quality motorsports events to enthusiasts at major racing venues throughout the nation. NASA has created programs that allow owners of both race cars and high-performance street-driven vehicles to enjoy the full performance capabilities of their cars in a safe and controlled environment. NASA offers many different programs that will allow individuals to enjoy motorsports on a number of different levels, including our High Performance Driving Events (HPDE), Rally Sport, Time Trial, NASA-X and Competition Racing programs.

NASA coined HPDE, High Performance Driving Event. NASA is the pioneer in providing a safe venue for anyone to learn to learn to drive on the track in a safe and controlled environment. Photos by Ross Monckton for MSA.
